

GREAT BASE JUNIORS

The Great Base is a tennis education system that takes principles from Vic Braden's tennis research. It is an accelerated program for goal-oriented juniors, combining form based technical training with game-based instruction. Players can expect to spend time on technique and learning advanced strokes before moving on to rallying and live ball drills. Once players have a sound grasp of efficient stroke production we begin working on singles and doubles concepts. For additional information, please contact Brian Clark at brian@ehitennis.com.

Days: Monday - Friday
